### EXPERIENCE

**Frontend Web Developer | Studio Eethetics**

**AUG 2022 – NOV 2023, AHMEDABAD, GUJARAT, INDIA**

- Boosted client interaction by 15% by crafting and maintaining readable, stable and reusable codebase for company website utilizing HTML, CSS and JavaScript.
- Reduced significant performance issues by ensuring code testing and debugging while making responsive website while using CSS frameworks like Bootstrap.

**Owner & Periodontist | Dr. Khurana's Dental Clinic**

**NOV 2014 - DEC 2024, AHMEDABAD, GUJARAT, INDIA**

- Crafted and executed meticulous, individualized treatment plans after deliberation on client (patient's) resources, thereby grew my dental practice by 300% in 10years and doubled our clinic space in 5 years.

### PROJECTS

**The Game Vault | Capstone Project**

**APR 2024, BRAINSTATION, VANCOUVER**

- The Game Vault is an e-commerce web application for online purchase and rental of video games for Playstation and Xbox console.
- Client side was built using React, NextJS, SCSS. Server side was built using Node, Express, SQL and Knex. Deployed using Netlify & Heroku at <https://thegamevault-nextjs.netlify.app/>

**Co-Developer & Winning team | Industry Project for Lululemon**

**APR 2024, INDUSTRY PROJECT AT BRAINSTATION, VANCOUVER**

- Created a website component for Lululemon using React, Vite, React-Bootstrap, HTML, SCSS. Made a recommendation system which takes user input via form to suggest a technical apparel which matches user's selection criteria.
- Led the winning team out of 5 teams comprising of web developers, UX/UI designers & data scientists.
