EXPERIENCE

Frontend UI Developer | ExpressoTS | Open Source
Aug 2024 – Present

- Crafted UI in Figma to translate into code using React and Typescript for rebranding of existing website for ExpressoTS, a Typescript-Node.js based framework. Mock ups can be seen on **Figma Link**

Front End Developer | Studio Eethetics
Aug 2022 – Nov 2023

- Boosted client interaction by 18% and enhanced overall user sentiment by 12% by a crafting pixel-perfect user interface through code for the company website utilizing HTML, CSS, and JavaScript.

- Reduced performance issues by 14% by ensuring code testing and debugging, thereby improving overall ease of use by 7%.

- Collaborated and coordinated with designers, project managers, stakeholders, and branding company to ensure a responsive website design and consistency across different devices and media platforms.

Periodontist & Owner | Dr. Khurana's Dental Clinic
Nov 2014 - Nov 2023

- Spearheaded client interaction, and clinical treatment, while managing a team of 10 people including panel doctors and staff by fostering teamwork, thereby growing my practice by 250% over 9 years.

PROJECTS

The Game Vault | Project | View Project Live
Apr 2024, Brainstation

- An e-commerce web application for online rental and purchase of console video games for Playstation and Xbox.
- Client side was built using React, Next.js, Axios, and SCSS. Server side was built using Node, Express, SQL and Knex. Deployed using Netlify & Heroku.

Co-Developer & Winning team | Lululemon Industry Project
Apr 2024, Industry Project at Brainstation

- Created a website component using React, React-Bootstrap, HTML, SCSS, and Vite. **View Project Live**
